Alberta College

The Alberta College at Edmonton will shortly enter its eleventh year's work. During the past ten years over four thousand students have studied in the various courses. The college on the University grounds is now under separate control from the older school on First street, and will take care of the more advanced pupils.

The outlook is bright for the coming term—some hundred and thirty students can be accommodated in residence, and nearly all the rooms are already reserved by outside students. A large number of city students have also declared their intention of entering classes in September. The three dates for registration are: Music, September 2nd; Preparatory, September 6th; and Theology, September 25th.

Anti-Boxing Bill on Way

Los Angeles, Sept. 3.—An anti-boxing bill now being drafted by a committee of the Los Angeles Chamber of Commerce, and which it was announced today, would be presented to the voters of the state as an initiative measure, is said to be the most drastic measure of the kind ever proposed in California. It would limit all contests to four rounds, prohibit the charging of admission fees for spectators, and make eight-corner gloves the lightest that could be used.

The federation met today to plan an active campaign for this measure.

Superintendent Harshaw, of the Medicine Hat-Cranbrook division of the U. P. R., took a run over the line last week end.

Press Association To Gather At Edmonton

Edmonton will have as its guests at the close of next week the members of the Alberta and Eastern British Columbia Press Association, and a gathering of exceptional interest is looked for. This body held its meeting here four years ago, and so successful did it prove that the association took on a new lease of life and has grown steadily in numbers and influence. That the Edmonton convention was the first business session, the turning point in its history was laid special stress upon in the reports that were presented at Nelson last year, and it is expected that quite as striking results will be secured from the second visit to the Alberta capital.

Extensive preparations have been made for the entertainment of the delegates. At noon on Thursday, Sept. 11, following the first business session, a civic luncheon will be tendered the visitors. In the evening a trip will be made in the steamer "City of Edmonton" to Laurier Park, where an open air barbecue will be held. On Saturday there will be a motor drive about the city and a visit to the theatres. At 11:30 p.m. a special train leaves for the Yellowhead Pass. Saturday will be taken up with visits to Fort Assiniboine and Mount Robson, returning to Jasper National park in the evening. Sunday will be spent in the park, with special trips to Lake Patricia and Pyramid lake, Edmonton being reached again on Monday morning.

Mr. W. P. Hinton, general passenger agent of the G.T.P., and Mr. R. C. W. Lett, tourist agent, will accompany the train, and an exceptional opportunity will be given to see the beauties of the new route through the mountains.

The business sessions promise to be of unusual importance and value to all newspapermen. The foremost topic will probably be the proposal to affiliate with the Canadian Press Association. An effort is being made to unify the press associations throughout the Dominion into one large and strong organization.

At a meeting of the Western Canada Press Association in Winnipeg early in July it was unanimously decided to fall in with this plan, and that body will be hereafter known as the Canadian Press Association, Manitoba and Saskatchewan divisions.

It is believed that the Alberta and Eastern British Columbia Association will follow suit, and when once the general scheme is perfected, it will be the means of strengthening the business of newspaper publishing very materially throughout Canada.

On the afternoon of the first day, Mr. John M. Inrie, the secretary of the C.P.A., will explain the proposal in all its bearings.

A severe frost was experienced throughout The Pass on Monday night.

HYMENEAL

Berry-Chatfield Nuptials

Child is still born in this section, and the latest to fall prey to the butting inducements was Harry B. Berry, of the Blairmore drug store, who on Wednesday afternoon was united in matrimony to Miss E. Chatfield, late of the law office of L. H. Putnam. The ceremony was performed by the Rev. W. H. Munce at the home of the bride's parents, Twelfth Avenue, only the immediate relatives and a few friends being present.

After the ceremony, a sumptuous repast was partaken of, and the young couple left by the hotel for a honeymoon sojourn to western points.

On their return the young couple will take up house on State Street, in a new residence just completed by F. McFarlane.

They were the recipients of numerous presents, costly and unique, testifying to the popularity of both the bride and groom.

Cummins-Brooks

A pretty wedding took place at Indian Head, Saskatchewan, last week, when Miss Isabelle Brooks, of England, was united in matrimony to Robert Cummins, of Maple Leaf. The happy couple arrived at Indian Head on Friday evening and are staying temporarily with Mr. and Mrs. Joshua Atkinson before taking up their home at Maple Leaf. Bob is receiving heartfelt congratulations from his large circle of friends at Bellevue and Maple Leaf.

Ostrzenski-Ferber

A marriage ceremony was solemnized at the home of Mr. Rudolph, Maple Leaf, on Monday evening, September 1st, when Miss Charlotte Ferber, of Germany, was united in matrimony to Mr. Emil Ostrzenski, of Bellevue. The bride was assisted by Mrs. Leola Ostrzenski, while Adam Lukalski acted as best man. Rev. W. H. Irwin officiated.

Polo Tournament at Cowley Next Week

Polo fans are in for a great treat at Cowley next week, when a big tournament will be held. The opening games will be played on Monday, and the tournament will continue all week.

The management has spent over \$6,700 in preparing for the big meet, and the best teams in Western Canada will compete.

The North Fork team was to have held the tournament this year, by right of having won the championship last year. However, they gave way to Cowley, the facilities for a big tournament there being better.

The week's events have been outlined as follows:

Monday, Sept. 8.—First round for Open cup.

Tuesday, Sept. 9.—Semi final for Open cup; first round for ladies' cup.

Wednesday, Sept. 10.—Final for Open cup; first round for ladies' cup.

Thursday, Sept. 22.—North vs. South; semi-final for ladies' cup.

Friday, Sept. 12.—Final, ladies' cup; gymnastics.

Saturday, Sept. 18.—Five leading teams will start for Spokane to

BLAIRMORE

Dance At Sanatorium An Enjoyable Affair

The most successful dance for the year was held at the Pocky Mountain Sanatorium on Monday night, which was attended by upwards of eighty couples.

Besides the dancing, numerous games were indulged in as side-lives and afforded a source of amusement for those whose days of dancing has passed over or whose appetite for pleasure was directed elsewhere than the ball room.

The ball was set rolling at 9:30 and until 1 a.m. did the gathering disperse. Everyone seemed to make the most of the opportunity for a gay old time.

Mr. Fred Harris and others rendered popular songs at intervals, which added much to the entertainment of the guests.

Among the guests were parties from Pluher Creek, Lundbreck, Burnside, Pashburg, Hillcrest, Bellevue, Coleman and Fort, as well as a number from points in eastern Canada and neighboring states, all of whom pronounced the affair the most enjoyable they had ever attended.

Luncheon was served shortly after midnight.

Miss Pluher Creek orchestra furnished very appreciative music.

Marshall Lost Decision

The boxing bout pulled off in the Fenie arena on Monday night between Dick Marshall, of local fame, and Cyclone Scott, of Vancouver, was pronounced the best ever staged in that town, and from start to finish was a real fight for honors and an exhibition of generalship. Early in the bout both the combatants showed signs of suffering real hardship, but neither faltered until the completion of the schedule at the fifteenth round when the "Cyclone" was awarded the decision on points. Both men were recipients of the hardest usage, but outside of a few days will appear in their normal form.

Marshall is billed to meet Joe Cunniff either at Cranbrook or Fenie on the 20th of the present month, which bout it is expected will attract a large attendance of boxing enthusiasts.

Business Men See Great Cement Plant In Full Operation

Eighty-one business men and others prominent in affairs in this city visited the plant of the Edmonton Portland Cement company at Marlboro on Saturday, and inspected the extensive undertaking which is now in full operation.

The party left the city on Friday evening, returning late on Saturday night. It spent all the forenoon on Saturday going through the plant. The manufacture of the cement was seen from the gathering of its prime components to the bagged finished product—Edmonton Journal, September 1st.

Mr. C. J. Dugg, who for a number of years was manager of the Rocky Mountain Cement plant in Blairmore, is manager of the plant referred to above.

competes in big tournament there. The teams entered are: North Fork, Cochrane, Millerville, Cowley, Pelly and Nield.

K. K. PARKER
Leo Lake Ranch,
BURNED ALBERTA

A man named George Morrison was run over by a train at Coleman on Monday night and died from his injuries about two hours later. His body was terribly mangled. Funeral took place at Coleman on Wednesday. Deceased had been a resident of Coleman for a considerable time.

WHAT A CAT COULD HAVE.

At his Quenced, but Only Little Eve
Guzzled Right.

"What is it when a cat and an
animal have been together?"

"One animal immediately, for
the other."

"How, have?" quizzed another pupil.
"Holds out a paw and says, 'I know, teacher,' exclaimed No. 2."

"How, have?" This from No. 2 again.
"Water has splashed."

"My, my!"

"Come on, isn't it?" retorted No. 2.
"Have, have?"

"Now, my father?"

"Shiver!" cried the teacher. "Can't
you say one thing that a cat has done
to any animal can have?"

"A little girl (thud) have up her
back."

"Well, Eva?" replied the teacher en-
couragingly.

"Kittens," smiled Eva.

"And the little girl went to the top of
the class—Eva."

Explained.

Down in the hot river valley sec-
tion of Louisiana there is a planter,
a veteran of the civil war, who is not
at all for his fortune.

Not long since he married, and every-
thing called along nicely for a few
days, but the captain was called out
early one morning by a negro tenant,
who wanted to see him on business.

As soon as the captain saw the negro
he began to curse him.

The young wife, hearing the violent
language, stuck her head out of the
window and asked, "Is that your?"

Before the captain could answer the
darky said apologetically, "No, ma'am;
that's Capt'n Johnson's—Judge."

In a New Firm.

"My husband," said an American
wife to a friend, "has released the ill it."

"What has he done?"

"He has let his best man and made me
a mistress planter for his husband,
and after I put it on he turned round
fully and said to me, 'Your husband
does not hurt like those that my
mother used to make.'—Futurist."

Unfair.

"I'm not going to Sunday school again
today," fretted a small girl, returning
from her first experience of this nature.

"Why, don't you?"

"Oh, I liked part of it well enough,
mother, but I don't think they played
fair with me. The teacher took my
penny and put it in a bag, but she
didn't give me any pennies for it, nor
nothing."—Exchange.

Might Come in Handy.

"Is that man over there? He is a
somewhat idiot, a wildman never
quite a false alarm and a circum-
stance of the earth."

"Would you mind writing all that
down for me?"

"Why in the world?"

"How my husband, and I should like
to use it on his own time."—Silly
Stories.

Driven to It.

"Seems to me the children do nothing
at school now but cut out paper
dots and make mud pies."

"Well, maybe of the world is changing
days, so until things are settled
they can't study history or geography.
These simplified matters have put
them up in the air. So what else
children do to?"—Washington Herald.

Felt It.

"The Eastman—That is the spring
egg. Can't you see it cut out paper
dots and make mud pies."

"The Pullman—You bet. You can
see the boys knocking fire and
footing grounds in the little sand-
box. I saw a diamond, can't you?"

"Yes."

"I am—uh—killing—Indian!"—Ev-
erbody's Magazine.

Proat Positive.

"I am—uh—killing—Indian!"—Ev-
erbody's Magazine.

erbody's Magazine.

No Deer Handy.

At an annual score of roces "for all
goodies" the sun was shining down on
a field of fat, excited horses and men,
all waiting for a tall, rawboned steed
to get into line.

The patience of the starter was nearly
exhausted. "Bring up that horse!"
he shouted. "Bring him up!"

"The rider of the refractory beast was
a young Irishman, a very good-looking
fellow. "This horse's been a cab horse,
and he won't start till he hears the
doctor's whistle. I shan't go on down."

"Ladies! Horsemen! This from No. 2 again.
"Water has splashed."

"My, my!"

"Come on, isn't it?" retorted No. 2.
"Have, have?"

"Now, my father?"

"Shiver!" cried the teacher. "Can't
you say one thing that a cat has done
to any animal can have?"

W. J. BOWLER, Proprietor.

Bellevue, Alta., Fri., Sept. 5, 1913

It has been announced that more than 17,000 farmers will settle on C.P.R. lands in the neighborhood of Lethbridge, in the near future, as a result of the C. P. R.'s immigration scheme.

Next week we start our big piano contest, when every young lady who has the time to spare and the enterprise will be getting busy to try win for herself or a friend one of our high-grade prize pianos.

Thirty four foundations laid in Blairmore within two or three days looks encouraging, and should convince outsiders as well as residents of the town that the future of the Metropolis will be more than a mere dream.

Although there is so much building going on in Blairmore at the present time, there will not be a house enough to accommodate the steady influx of new comers, and there is a splendid opportunity for anyone having the money to invest in a paying proposition to put it into modern cottages here.

Visitors to Blairmore cannot but be surprised at witnessing the extent of building operations and general expansion of the Metropolis of The Pass, and all are wondering these days what the future of the town really holds amongst the leading centres of the Province, and the wonderful future which is in store in the most glowing terms.

As a town having behind it resources of illimitable extent and value, Blairmore certainly takes the lead, and even today there is not a corner of Alberta where less unemployed are to be found than here.

The amount of building at present going on has called for the commissioning of every carpenter and bricklayer in the district, and judging by the amount of proposed buildings which it is intended to have completed ere the approach of the wintry blast, this town will be the rendezvous for building tradesmen during the remaining months of 1913.

Sixty-third August thirty-two foundations for dwelling houses and business blocks were laid, meaning that at the lowest estimate the town of Blairmore is building up at the rate of one house a day, and in no case are the buildings being built of anything less than an inferior class, but average in value upwards of \$300 each.

With a continuance of building operations such as at present in evidence, together with the incoming of people from all parts of the globe, one can feel fully justified in expecting Blairmore's population to reach the ten thousand mark within the next five years.

One who has witnessed the recent developments in the town cannot become dubious over the future possibilities, and there is every reason to expect that large numbers of the wage-earners in this district will become so interested in Blairmore as the coming centre of commerce for the Crown's Nest Pass as to divert their investing powers from the doubtful investment in the local town whose future is assured and whose progress is everywhere in evidence.

What Makes a Live Town

Blairmore for many years just poised and poised and poised. Niagara for many years just poised and poised.

But Blairmore has been up at her post and ready. And now its manufacturers' vans are known from sea to sea.

This town has its Niagara that runs the river. Who waste their energy because they lack knock and knock, they who kick and run it down would use that energy.

To boost instead, then what a town this town of ours would be? What are the fundamental forces that underlie the distinction between the live town and the dead one? Why is it that one town is bustling, active, progressing and seems to breath forth a spirit of prosperity, while another is quiet, dismal, as if quaked and oppressive to all who enter? People who live in the town of the last class who are questioned as to the backwardness, inferiority, poverty of resources and lack of facilities, but it is not our observation that many communities with a natural disadvantage are actually inferior to those of their neighbors have been far more prosperous and progressive, and the secret of the matter has been found, not in natural conditions, but in the people themselves.

Back some where in the history of some live town, there lived a man who realized that optimism is an asset and was once optimistic. He was optimistic, and like his dark some optimist, pessimism is also contagious. He therefore communicated it and taught its doctrine to his co-dwellers. Optimism brought strength, and by concerted effort under an intelligent direction the town gradually underwent a metamorphosis. Homes that were dilapidated, narrow and dingy, changed their active and became stately and in a new coat of paint, alleg and back yards that were cluttered with the cast of their debris, took on a new appearance, rough, dirty and neglected streets became smooth and inviting. Merchants began to vie with one another in the appearance of their stores. New cases were installed, show windows cleaned, display made master and the sick arranged to do so orderly.

And what were the returns for this effort on the part of the people of this town—in what were they repaid for this expenditure of time and money? Right here is the vital point. The attractiveness of a town is one of the most important factors in its upbuilding. It draws tourists who naturally elude the squalid, unkempt communities; it draws home seekers, people who want to invest where they can expect increased valuation on their property, who seek a better life, who have an spirit of progression and enterprise. Capitalists and promoters are likewise drawn to communities where there seems to be a sound base of prosperity, and are led to investigate the latent resources of the place. This leads to the development of new industries and they in turn enhance the value of a town as a commercial centre.

It is better to help the town accomplish one good thing than to point out a dozen poor ones.

When you write a letter tell the town looks. It is as important as the stamp. A good way to drive the children away from home is to tell them what a poor town this is.

Don't leave all the work of development in this town for others to do. The proper use of a hammer is to drive home a nail or a truth.

Individual boasting of the town is good, but concerted boasting gets results.

If you don't see this town's advantage, how do you expect a stranger to do so?

The village band makes sweet music, but it isn't in it with the village carpenter.

If you can't get behind a movement for the town's good, at least don't get in front of it—Crack up Prospector

Fashion's Whims Cause Lots of Trouble

Wearer Causes Excitement Sent to Asylum.

Peoria, Ill., Aug. 29.—Miss Edna Kay, 22 years of age, who yesterday caused great excitement as she paraded through the principal thoroughfares of the city dressed in clothes of the latest cut and design, included a slit skirt of the extreme variety, was today sent to an asylum. Crowds of old and young men followed and looked as she made her way down Adams street until she was taken in tow by a policeman. She was later turned over to Judge Stone for a hearing. After the hearing she was committed for treatment.

More Man Also Creates Sensation
Los Angeles, Cal., Aug. 29.—J. Darbin, city trustee of Vernon, appeared before the board of public works in the first pair of "slit trousers" to be introduced into official circles.

The slit in the trousers runs half way to the knee, and a corresponding slit in the sleeve extends half way to the elbow.

"I intend that Vernon shall have the latest styles," said Darbin.

"Slit trousers have come to stay, and within a few years everybody will be wearing them."

Vict. Suppression Society Says

Bellevue, Md., Aug. 29.—The liberation of Bellevue by only one member of an "X-ray" skirt was enough for the Society for the Suppression of Vice. It will petition the board of police commissioners or Marshal Palmer to prevent the wearing of such skirts in Bellevue.

A young woman walked along Howard street in a transparent gown yesterday and was more an attraction than an ordinary circus parade. Having learned of this, Judge Corbett, chairman of the society, decided to explain the necessity of preventing the appearance of such skirts on the streets of this city.

The Recreation Need

Judges, coroners and moral reformers may continue to argue among themselves concerning the best means of stamping out vice and crime, but until normal recreation is made more easily obtainable their undesirable recommendations will remain substantially unchanged.

Bars and poolrooms are crowded because there is nowhere else for the youth of this city to go. Dance halls of the present type are patronized for want of better places. To suppress what is bad without providing something wholesome to take its place is only to drive exuberant youth to secret drinking dens and places of entertainment. All this time the school buildings, which ought to be the centres of social activity, remain closed during the greater part of the year.—Toronto News.

Farmer Takes Mail in 'Barrow'

Edmonton, Alta., Sept. 3rd.—Joseph Schwarz, a wealthy farmer of Rochetown, Alta., who asked the assistance of the police of Edmonton some time ago in finding a wife for him, receives his mail in a "barrow" this day, and is the postmaster of the settlement threatened to strike. The lone farmer has letters from every state in the Union and from all parts of Canada and Europe, the writers being women of all ages. According to the letters, most of the writers are spinners. They are ready and willing to make a home for Schwarz and live on the farm. Some of them are widows with children. Schwarz is busy generating his energy, but he is devoting several hours every night to reading and classifying the letters, which he will answer when his grain is harvested.

The Telephone Girl

And listens to girls still in the air. And listens to voices from everywhere. She knows all the happy, she knows all the news.

She knows who is happy and who has the blues; She knows all our sorrows, she knows all our joys; She knows all the girls who are "chasing the boys."

She knows all our troubles, she knows of our strife; She knows every man who takes mean to his wife; She knows every time we are out with the boys; She knows the women that each fellow employs.

If the telephone girl told that she knew, It would turn all our friends into bitter foes; She would show a little wind that would make her a trouble and land us in jail.

She would start some story which would cause half our friends to go to divorce.

She could get all our churches mixed up in a fight, And turn our bright days into sorrowing night; In fact, she could keep the whole town in a stew.

If she told but one-tenth of the things that she knew, Say, kids, but doesn't it make your heart bleed? When you think what you owe to the telephone girl!

Printer's Error Makes Europe Laugh Loudly

Paris, Aug. 30.—A story which is pleasing France very much just now is the error made by a printer at the Hague at the time of the peace conference just concluded.

The printer received an order for quantity of type giving the syllables of the congress, at the same time that another order arrived to print assuming the arrival of a man's life in town. By an extraordinary mistake the two jobs got mixed up.

The result was the printing of the syllables of the congress, with the words "man's life in town" printed in the margin.

"Program of the Universal Peace Congress."

"A gala representation each day of 200 artists—singing and dancing legends; impressive groups of those 'Slit-tiger'—a raucous of trained canine at liberty."

Although a bad impression was made, the error was repaired as soon as possible. It is understood that a number of inhabitants of the Hague did not appear to take the great peace conference as seriously as it deserved.

Plunge Seventy Feet And Escape Death

Edmonton, Alta., Sept. 2.—Four people had a narrow escape from death when the engine of a motor car, in which they were driving, stopped near the crest of a very steep hill on the Chertsey road, and running backward, down the edge of a cliff, plunging 70 feet.

The car was driven by Arthur Plante, who is a world's champion puddler in war times and holds the world's quarter mile record for single-course. Mr. Plante, who was recently married, was accompanied by his wife, her mother, Mrs. Morgan and R. Trepanier, all of whom recently came here from Ottawa.

When the car stopped it ran back so quickly that Mr. Plante had time to apply the emergency brake, but had his foot on the other brake and clenched the speed of the car as it dashed backwards down hill. He clung to the steering gear and kept the car going slowly. In its descent of the embankment the car dropped a big tree and cut another tree in two. Trepanier jumped before the car to stop it, but the car rolled over the occupants stuck to their seats. Mr. Plante's hand was torn by the branch of a tree, but he still clung to the wheel and probably was the means of saving the lives of his wife and mother-in-law. At the bottom of the embankment the car broke through a wire fence and made some to a sharp fall on its end in a brook.

It often runs off by indignation and constipation, and quickly disappears when Chamberlain's Tablets are taken. For sale by all dealers.

Austrian Miner Injured.

An Austrian miner named Anselm sustained severe injuries to his legs while at work in the Blainmore mine on Thursday afternoon. He was conveyed to the Frank hospital, where it is expected he will be confined for some time.

Blainmore Youth Charged With Theft

A young man, resident of Blainmore, was taken to Macleod on Wednesday, where he awaits trial on the charge of theft.

According to information it appears that a letter containing a sum of money is alleged to have been received by the prisoner from the Blainmore post office. The letter was opened, the money appropriated, and knowing that the letter was not his, he did not belong to him. The opened envelope was returned to the post office with the words "opened by mistake" written across the face of it.

Nothing was said about the matter, while in the meantime the funds were being sifted out with the result that suspicion pointed so strongly to the accused as to warrant his arrest.

A preliminary trial was given and the culprit was ordered to be taken to Macleod to await final hearing.

Body of Babe Is Mailed

Montreal, Sept. 4.—Trying to ascertain to whom to return a box for the necessary postage, a post office clerk at the central office here opened the package and found a newly-born babe. This case, which is the second in the history of the Montreal post office, is in the hands of the police.

The box, which was of ordinary plain cardboard, also the size of a book box, was wrapped in paper, was addressed to the Maternity hospital, corner of Dufferin and St. Helier streets and was without stamp. It was brought in by a mail carrier from one of the drop boxes in this city and sent to the "Dead Letter Office" to be returned post-free.

When the gruesome discovery was made, the detective bureau was notified and Detective Lacombe was put on the case. He could be learned, for none of the drivers or collectors could remember the very ordinary looking package, and there is no clue as to the part of the city where it came.

Professor C. ear. Bencroft, now in charge of the Bellevue hospital, and if arrangements can be made, the town would have in charge of its medical programme a man of talent and of skill, being a graduated gold medalist in hygiene and contributor from the Royal Academy of Music, Naples, Italy. His post graduate work was recognized by King Victor, who conferred upon him the distinguished title of "Cavaliere," andmaster of the 93rd infantry in Italy, conductor of 17 orchestras which were an introduction to those who have kept in touch with his history on this continent.

W. Cole, of the Bellevue poolroom, and Leonard Palmer, was caught in the act of dancing the lightest fantastic at the Senatorium on Monday night.

It is expected that Mr. Sexton, of Coleman, will endeavor to wrestle the heavyweight title from Jack Taylor some time about the last of October.

A part of Miller Bros' tent show arrived in Blairmore on Saturday and are operating a merry-go-round and side shows to good advantage all this week.

The plant of the Fletcher Creek Echo was to have been sold on Saturday last, but as there were no bidders the sale had to be postponed until Tuesday next.

Mr. L. Thorne is expected back from Vancouver this week. Mr. Thorne proposes moving to the Coast, where he will make his home in future.

Sir William White announces that the financial horizon is clearing and that times will be better soon.

The Ferial board of trade is still rapping the knuckles of the travelling real estate sharks, who from all appearances have become extinct and passed into oblivion.

The Owl programme at Coleman on Labor Day was considerably marred by cold weather and the threat of rain. Owls are good birds and seldom take chances!

Langford to Fight J. Johnson

Nelson, Aug. 30.—Sam Langford, Boston heavy weight, to meet Jack Johnson, heavyweight champion of the world, in a bout for the title, on Sept. 1, December 30. Arrangements for the match were completed by cable yesterday, according to Joe Woodman, manager of Langford.

The bout is to be for 20 rounds and will be staged in the Cirque de Paris, under the direction of Theodor Vinnio. Langford is guaranteed a lump sum and a percentage of the receipts for his appearance. Woodman says.

The Boston heavy weight was defeated by Johnson seven years ago and has been seeking a "bout" with the champion ever since. Johnson's reported loss of money, and the fact that proposed bouts with white men in Paris and London have been frowned upon, are the reasons, in Woodman's opinion, that resulted in the match being made.

Uddfellows Go To Minneapolis

The Oddfellows of Calgary will send a strong contingent of delegates to the big convention to be held at Minneapolis this month. Members of the Ganges will compete for prizes and already they are preparing to bring back to Calgary as many of the houses as possible. A special train will carry the delegates to Alberta, including Calgary, and Edmonton, will leave Calgary on Friday, September 12, and it is expected that between 40 and 50 Oddfellows from Calgary will take in the trip.

Work on the foundation for the extension to the F. M. Thompson Co's store was commenced this week. D. A. Sinclair has the contract. The new addition will give the store about one thousand square feet of extra floor space.

The Edmonton News Plaindealer is this week changing its name to the "Edmonton News" and, in connection with it a weekly illustrated edition will be published, under the title of the "Alberta Illustrated News."

The Blairmore school is now about taxed to its fullest to accommodate the increased number of pupils, and lack of accommodations made it necessary to refuse the enrollment of several Frank children who desired to take advantage of the present term.

Meers, King, Ede, Putnam and Harris treated themselves to a ride on the merry-go-round on Monday, and claim the "treat" to be exhilarating, pleasant and restful to the nervous system.

They say "the more the merrier"—two horses are better than one—if it is "a horse" on the merry-go-round.

Negotiations are still on between the residents of Frank and the government for the reopening of the Frank public school. The situation as it stands at present is regrettable and is recking hardship upon people whose livelihood it has to become financially interested in the slide town, and it is earnestly hoped that arrangements will soon be reached whereby the school may be reopened and teaching resumed.

A wrestling tournament was held in the opera house on Wednesday night, the principal feature being the underdog of Jack Taylor who claims to be the champion heavyweight of Canada, to throw six local men in one hour. The first victim was Ollie Olsen, the big Swede, whose shoulders were put to the mat in 2:28 minutes.

Jean Furieux, of "Frank" came next and put up a good exhibition for 4:16 minutes. "Dan" came third and stood the strain for exactly 6 minutes. Taylor is not by any means a heavy man, but is well skilled in the knack of wrestling. A special feature in connection with the tournament was a wrestling exhibition between Rita Taylor and Ada Lorraine, the only two ladies following the wrestling profession in Canada.

Lake City Project

At the foot of Crow's Nest Lake, which has been for some time the annual camping ground of the Lethbridge branch of the Y.M.C.A., T. P. O'Connell and J. H. Johnson are laying out a townsite to be known as Lake City and hope to make a summer resort for the benefit of the people living on the Crow's Nest valley.

A. J. McGuire, a mining man well known in Alberta, has acquired a large body of coal land here and is laying out development work upon it. He has already uncovered six miles varying in thickness from six to ten feet and which have been traced on the surface a distance of four miles. The coal is very clean and is what is known as a semi-anthracite or a very superior quality of bituminous as the following analysis will show that was taken at a depth of 30 feet from the surface: 21.21 percent carbon, 38.66 percent moisture, 8.10 ash, made by the Rocky Mountain Cement company. The day of the ground issues that a depth of over 100 feet above the surface level is easily obtainable. This coal property will no doubt soon become a shipper and a large factor in the coal industry in Alberta, and furnish employment to a large number of miners.

Harry Matheson is developing a coal property about one-half mile from the station and has two seams of bituminous coal and coal containing.

Mr. Johnston, of Medicine Hat, has secured land at the head of the lake and is now preparing for the opening of large time quarries there. The limestone is to be shipped to Medicine Hat to be burnt by the gas into coke there.

At the head of the lake surveyors are laying out the site tracks and sites for the large crushing plant and storage bins, for the Danmore Cement company, whose best stone is quarried about one-half mile from the lake. Their survey line will have room for mining 1200 tons of crushed rock. The crushing plant is to be capable for crushing three hundred tons of rock per day. To handle the cars is necessary it will require some four thousand feet of side tracks. To keep their place in Medicine Hat, the surveyors will require them to quarry and crush in their plant here one thousand tons of cement rock each day in the year.

To do this will give steady employment to over one hundred men, and also will require two extra train crews and two solid trains per day between this point and Medicine Hat.

Shower pipe clay is found here at the foot of the lake in quantities and the two clay roads set to the Medicine Hat Clay Products company have proved very satisfactory to the shipper.

There is a good site available at the foot of the lake near the railroad for a cement plant, as all the material required, cement rock, clays, shales and water power, lies within a radius of half a mile.

Prop outcrops to supply the various mines in The Pass and on the prairie will commerce next month and employ quite a number of men in the timber. Some fifty thousand mine props are being sent out of here annually.

To be settled, or what will soon be Lake City, produces little, if anything, in the agricultural line, it is already a point of considerable activity and will soon be counted as one of the most productive points in Southern Alberta. (Editorial correspondent to Lethbridge Herald.)

Suicides Will Be Fined, Says Poster

Paris, Sept. 3.—Close to the old Breton town of Fougères is a pond beside which is a signpost setting forth in large letters that, by order of the local authorities, "all persons drowning themselves in the pond will be heavily fined."

During the past few months, quite a number of persons tired of life, have ended their lives in the placid waters of the little lake, moved up doubt by the spirit of imitation so frequently found in persons of unbalanced mind. A woman dwelling on the bank conceived the idea two months ago of putting up the notice in question and the instant of obedience to the behest of authority is so deeply seated in the French mind that suicides have occurred in the pond since.

Bellevue Happenings

J. James is building a new house at Maple Leaf.

Mr. Coates is building a log house at the dairy ranch.

Mrs. Tully, of Maple Leaf, went up to Fernie on Friday evening.

Mrs. Joshua Atkinson was laid up with a severe illness last week.

J. B. Roud and his son Gus are out on their ranch near Morley, B.C.

A large number of the local "Owls" took in the sports at Coleman on Monday.

Mrs. Irwin entertained Mrs. Davidson's sewing class at a party on Wednesday evening last.

Albert Padgett, Fred Padgett, Arnold Taylor and Wilfred Campbell formed a fishing party at the South Fork on Sunday and Monday.

Meers, McCulloch and Tully, of Maple Leaf, and Mr. Tully, of Fernie, left on Saturday morning on a two-day fishing excursion to the North Fork.

Mr. Frank Possey, who underwent an operation in the local hospital recently, has recovered sufficiently to be removed to her home on Tuesday.

Mr. Weeber, pastor of the Passburg Presbyterian church, preached very acceptably at Bellevue on Sunday night. Mr. Irwin presided at Passburg.

Quite a number of Bellevue people took in the Sanatorium ball on Monday evening. Among them were J. Walters, Glen Stubbie, W. J. Cole and Mrs. Edward Campbell.

The Rev. A. C. Tate, who has been conducting Anglican services here, has been moved to Langford, where he assumes his new work as pastor. There will be no further Anglican services here until further notice. Mr. Tate has made many friends here, who will regret his departure.

The teaching staff of the Bellevue school are in the camp and ready to commence work. The new school building will probably be ready by next Monday. The principal, Kelly is tickled over the prospect of having such a splendid "quintet" as the new building affords. The present school board deserve every commendation upon the way in which they have navigated the educational affairs of the camp. The teaching staff of this term will consist of Arthur J. Kelly, principal, Alice Bradley, Miss Scott and Miss Boyce. The two latter are new additions to the staff. Miss Scott having just arrived from New Brunswick and Miss Boyce coming from Pincher Creek.

The scholars and officials of the Methodist Sunday school, accompanied by their parents and friends, enjoyed a very pleasant outing on Labor Day at Goodwin's ranch. The weather conditions were almost ideal and nothing occurred to mar the continuous pleasure of the day. A series of games and contests of the unique character were indulged in by old and young alike. Through the kindliness of bandmaster Goodwin, the band dispensed music throughout the day which added greatly to the enjoyment. Among the unique games were a basketball contest for girls, which was won by Olive Goodwin, Winnie Dicken and Florie Hallworth; "shooting for duck apples" for boys, won by Dick Shone and Willie Goodwin. The baby show was won by Ruby Cousens and Mrs. James Cousens.

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Panton, of Tipton, Ill. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely. For sale by all dealers."
